Department of Design and Computation Arts  
Concordia University

To Whom It May Concern:

I am writing this letter for Che Tan's candidacy for the Computation Arts program. Che has been a student of mine in the Interactive Media Arts profile at Dawson College over the last two years. Che is capable of excelling in the fields related to interactive media, and in particular, game design, and so it is my pleasure to write a letter of recommendation on his behalf.

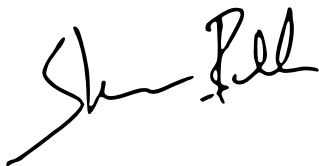

Che has proven himself to be one of our finest students. He is intrinsically motivated to learn, going way beyond the curriculum to achieve his creative goals. His friendliness and engagement in the classroom has been a model for all IMA students. While he tends to work on individual projects, he is also generous with his time, helping classmates solve problems, especially those related to logic, programming as well as issues related to gameplay.

As can be seen in his portfolio, Che has produced several outstanding projects for our various design and production-based courses. He has an excellent understanding of interactive design as well as the necessary skills to realize his ideas: coding, basic electronics, combining technologies, etc.

Given all of the above, I am sure that Che would be a credit to your program, and I therefore recommend him highly and without reservation.

I would be pleased to comment on Che's candidacy in greater detail; I can be reached at (514) 931-8731, ext. 4810, or at [sbell@dawsoncollege.qc.ca](mailto:sbell@dawsoncollege.qc.ca), if you would like to do so.

Sincerely,

A handwritten signature in black ink, appearing to read 'Shawn Bell', with a stylized, cursive script.

Shawn Bell  
Faculty, Interactive Media Arts, Dawson College.
